

Amsted Rail:
Vendor Inbound Routing Request

Process

- Beginning September 8th 2014 vendors will begin utilizing TMS to route Amsted Rail Inbound to Collect Shipments.
- Suppliers will enter shipment requests into TMS at least 36 hours before scheduled pickup.
- The request will be optimized and routing information will be sent 24 hours prior to requested ship date
- The bill of lading will be emailed to the supplier.
 - It is imperative that the TMS BOL be given to the carrier when shipment is picked up.
- Any shipments requiring Expedited Service should be entered in through TMS Portal and follow up communication should be sent to SheerTrans Team.

Count: 18

Transparency, Flexibility, Integrity

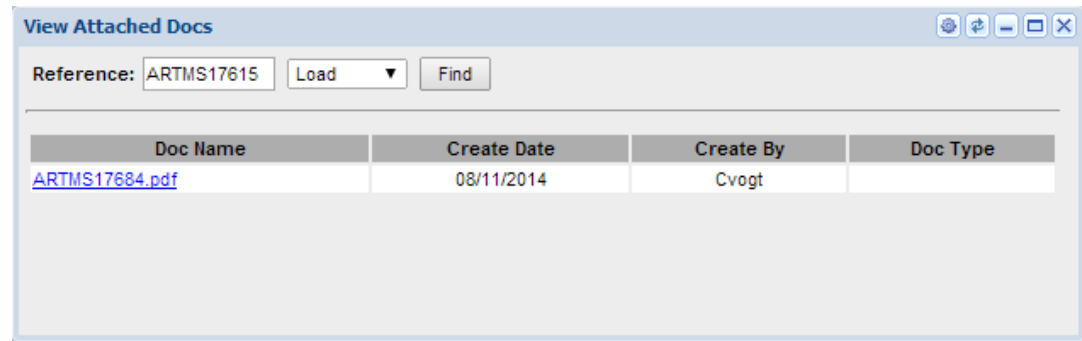

3 Customer News Portal

- Will be used to communicate Amsted information to vendors.
- Will include training documents for order entry

4 View Attached Docs

- BOL's will be emailed to user who requested
- You may also view BOL's by logging in the system and searching for documents through this portal

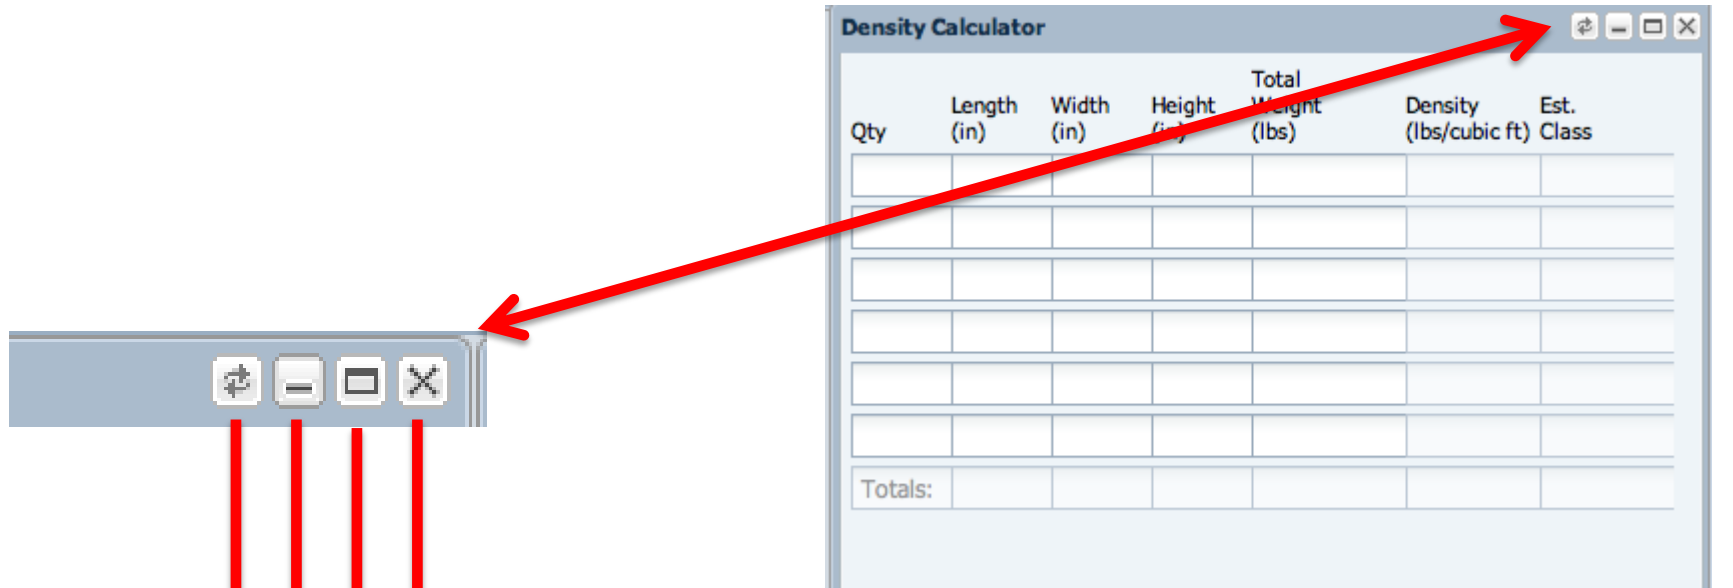

5 Density Calculator

- Can be used to calculate estimated Freight Class when Freight Class is unknown
- We are trying to avoid as many Weights and Inspections as possible. Again, this portal **ESTIMATES** the freight class, but can be highly useful.

| Qty | Length (in) | Width (in) | Height (in) | Total Weight (lbs) | Density (lbs/cubic ft) | Est. Class |
|---------|-------------|------------|-------------|--------------------|------------------------|------------|
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| Totals: | | | | | | |

We are trying to avoid as many Weights and Inspections as possible. Again, this portal ESTIMATES the freight class, but can be highly useful.

Helpful Tips

- Will delete the Portal – ouch, but don't worry
- Will maximize / restore the Portal
- Will minimize the Portal
- “Refreshes” the portal, you will probably never use

Create a Shipment

- Search for Purchase order by date and/or reference number
- Select lines to be included in shipment request (if you would like to ship multiple lines at once you can select multiple lines)
- Enter quantity for each line selected
