

# Accelerate and streamline your receivables with secure virtual payments.

To better serve our business partners, we are offering a better way to get paid. We are moving from checks and paper-based processes to U.S. Bank virtual account payments. This will help streamline your collection processes and accelerate fund availability.

Key benefits to our suppliers:

- Eliminates check handling and saves processing time
- Reduces receivables carrying costs and improves cash flow
- Increases security and control
- Improves remittance data and streamlines reconciliation

U.S. Bank is helping us implement this new program, and it's easy to sign up. Simply visit [usbpayment.com/virtual-payment-signup](https://usbpayment.com/virtual-payment-signup) to enroll for virtual account payments.

We appreciate our business relationship.  
Thank you for participating in our program.
