

Wood Packaging Regulations

Amsted Rail Inc. complies with the ISPM-15 standard for all shipments that contain wood packing materials.

Only IPPC ISPM 15 certified wood (heat treated) must be used for all crating, blocking, bracing, palletization, dunnage or any other use of wood on all international shipments. No organic packing materials such as straw is permitted.

An example of the ISPM mark is below

For information on wood packaging refer to the IPPC web site at: <http://www.ippc.int/Ipp/En/default.jsp>
