

Endurance 325™ Friction Draft Gear

Protection, performance and durability in one lightweight package

- Lightweight, high-performance gear
- AAR M901E unconditionally approved
- Offers 3-1/4" of travel in both the buff and draft direction
- Delivers 80 lb. weight savings over comparable 901E gears
- Fits a standard 24-5/8" draft gear pocket
- Utilizes the AAR Standard Yoke and Follower
- Optimized housing design for longer life (lower stresses)
